### CK-Magnum Handheld

The Magnum is a battery-powered, handheld disinfection machine. This kit includes the Magnum, (2) batteries, a charger, and a carrying case. The machine can spray continuously for up to 35 minutes on one battery. Users can walk around and spray efficiently and comfortably without being attached to a cord. Ideal for individual rooms.

### Go Germbuster Handheld

Touchless 360-degree cleaning, disinfecting, sanitizing, odor removal, and decontamination of surfaces and air space. Wraps around all hard to reach areas.

### CK-Commercial

The CK-Commercial sprays/fogs a mist of electrostatically charged droplets using a patent-pending Aerostatic™ charging process. This machine is designed to coat surfaces evenly over larger areas while placed in one location or on a cart while dispersing a water-based solution through a 25 ft. industrial-grade plastic hose. This machine can use a hose of up to 50 ft. to deliver the fluid and still be effective.

### CK-Storm

The CK-Storm Electrostatic Sprayer delivers electrostatically charged droplets using a high-speed fan and a patent-pending Aerostatic™ charging process over massive areas. This machine is used to disperse a water-based solution coating surfaces evenly.
